Undergraduate Research Opportunities

**Project #1**

**Lead Investigator:** Dr. James Floman

**Description of Research/Position:** What is the role of emotions in human health and well-being? How do your emotions influence your thinking? How does your thinking influence your emotions? Come join our team that is examining ways to measure fundamental interactions between emotion and cognition to answer the above questions. This position requires facility with reading and reviewing academic psychology articles, running basic statistical analyses (descriptive and correlational), and the ability to write clearly about complex subject matter. We have a diverse team of affective scientists who work in a rich collaborative environment. Come learn with us!

**Compensation:** Student Worker Payment

**Timeframe:** Spring 2020 academic semester

**Requirements:**
- A commitment of 6-10 hours a week
- 3.0 GPA (minimum)

**To Apply:** Please apply through Yale Student Employment – Job Reference #24044

**Contact:** Please e-mail james.floman@yale.edu for more information

**Project #2**

**Lead Investigator:** Dr. Craig Bailey

**Description of Research:** The Yale Center for Emotional Intelligence is seeking highly motivated undergraduates to fill part-time Research Assistant positions for a large, 5-year grant funded by the Institute of Education Sciences (R305A180293) to test the efficacy of preschool RULER, an approach to social and emotional learning, in preschools across Connecticut. This position focuses on data collection.

**Description of Position:** Undergraduate RA’s will be involved in multiple aspects of research (dependent on number of semesters committed). Duties may include, but are not limited to:
• Collecting child data in schools (must be available for morning school visits)
• Attending lab meetings

**Compensation:** Course Credit (3) or Student Worker Payment

**Timeframe:** Beginning of each academic semester

**Requirements:**
• A commitment of 10 hours a week (minimum)
• 3.0 GPA (minimum)
• Multi-semester commitment is preferred, but not required
• Interest in child development and/or assessment development
• Position is contingent on passing applicable background checks
• Experience working with children and/or in school settings is preferred, but not required.

**To Apply:** Please apply through Yale Student Employment – Job Reference #22837
